ELEANOR G. WHITE  
Deputy Director

July 1991

## THE MHFA HOUSING LIST

If you are looking for subsidized housing, the MHFA Housing List may be of assistance to you. The list contains information on over 400 apartment complexes in the state which are permanently financed by the MHFA, but are privately-owned and managed. Some or all of the units in each of these developments are subsidized for low- and moderate-income households.

## HOW TO USE THE LIST

The developments are listed alphabetically, by location, on pages 1 through 62 of the list. If you know the name of a development, but don't know where it's located, refer to the listing on pages 63 through 71.

Find the city or town of interest to you and read across to determine whether a development contains apartments with the number of bedrooms you need. You may also identify whether a development offers apartments exclusively for the elderly or contains apartments designed for persons with physical handicaps.

The completion date approximates the month and year when all apartments in a development will be finished. Sometimes, construction is completed in phases and units become available before the actual completion date. Also, many completed developments already have long waiting lists, particularly for subsidized units. Your chances of securing a subsidized unit may be greater in a complex being rented for the first time.

## WHO MAY APPLY?

All apartments are available to persons without regard to race, creed, color, or national origin, and are subject to federal and state fair housing regulations. Subsidized apartments are subject to MHFA regulations concerning household income and family size.

## HOW TO APPLY

To find out if there are vacancies in a particular development, whether you qualify for a subsidized apartment, and where to apply, contact the private management agent whose name appears at the end of each listing under "Management Agent". The telephone numbers are labeled either "Site Office" or "Main Office". The telephone numbers that are not labeled have the same site and main office telephone number.

No person may be refused the right to apply to the waiting list unless application-taking is closed for a particular unit size or type. The agent must post a notice indicating the right of an individual to call MHFA to verify a waiting list closure.

## OTHER SOURCES OF SUBSIDIZED HOUSING

There are three other important sources of subsidized housing in Massachusetts.

1. The Massachusetts Executive Office of Communities and Development (EOCD), located at 100 Cambridge Street in Boston, administers the state's public housing, elderly housing and rental assistance programs. (617) 727-3264

EOCD publishes an extremely helpful booklet entitled How To Obtain Housing Assistance In Massachusetts which provides basic information on housing resources in the Commonwealth. You may receive a copy of this booklet by calling the Housing Division at 727-7130.

2. Locally, most cities and towns in Massachusetts have housing authorities which construct and lease apartments for low income families and the elderly.
3. The U.S. Department of Housing and Urban Development (HUD) should be contacted for information regarding developments using federal subsidies. HUD's office for the Boston Area is located at the Boston Federal Office Building, 10 Causeway Street, Boston. (617) 565-5102

In conjunction with HUD and local housing authorities, the MHFA has provided construction financing for the subsidized developments listed on pages 72 through 75. For additional information on these, refer to the column which says, "Type". If it says "FHA" you should contact HUD. If it says "LHA" you should contact the housing authority in the community where the housing is located.

The MHFA is an affirmative action agency.
